

Wraparound is an integrated, multi-agency, community-based process grounded in a philosophy of unconditional commitment to support

families to safely and competently care for their children. The single most important outcome of the Wraparound approach is a child thriving in their home with their family and maintained by normal community services and supports.

Wraparound Care Coordination

Continuum
of
Care

Wraparound is a team based approach involving children, families, natural supports and professional service providers.

What is Wraparound?

Wraparound is a way to care for families who have complicated needs. Wraparound teams are made of caring professionals, friends and family who use Wraparound principles to meet the needs of families.

The Ten Wraparound Principles:

- Team Based
- Family Driven
- Strength Based
- Culturally Competent
- Collaborative
- Community Based
- Individualized
- Outcomes Based
- Natural Supports
- Persistence

Who is eligible for Wraparound?

Wraparound is for children with serious emotional or behavioral health diagnoses whose families need help keeping their children in the home, school or community.

Who provides Wraparound?

Trained facilitators provide Wraparounds in each community. The Wraparound facilitators help families develop their Wraparound teams and make sure families have access to the services and supports they need.

What happens in Wraparound?

Wraparound must have four separate and unique phases:

Engagement: The family and the Wraparound facilitator get to know one another and the family chooses the members of their Wraparound team.

Planning: The Wraparound facilitator, family and a team create a Wraparound plan. The plan is based on the strengths and needs of the family. The Wraparound plan uses services and supports that are traditional along with those that are creative and non-traditional such as respite, mentoring, tutoring, community activities, parent training, and more.

Implementation: The Wraparound team follows the Wraparound plan and meets regularly to review the progress and to update the Wraparound plan.

Transition: The family is empowered and is able to get the services and supports they need in their community, school, and home.
